Local Attractions

Whale Watching Tours

Experience a guided tour with our whale watching experts. It has all the thrills of fish watching, but bigger! Guaranteed to impress even the most easily distracted individuals.

Moffat Bay Hiking Trails

Trade your boots for flip-flops and your survival instincts for vibes. These sun-drenched trails offer stunning views, questionable signage, and just enough incline to make you feel accomplished. Perfect for hikers, wanderers, and anyone who packed snacks but forgot bug spray.

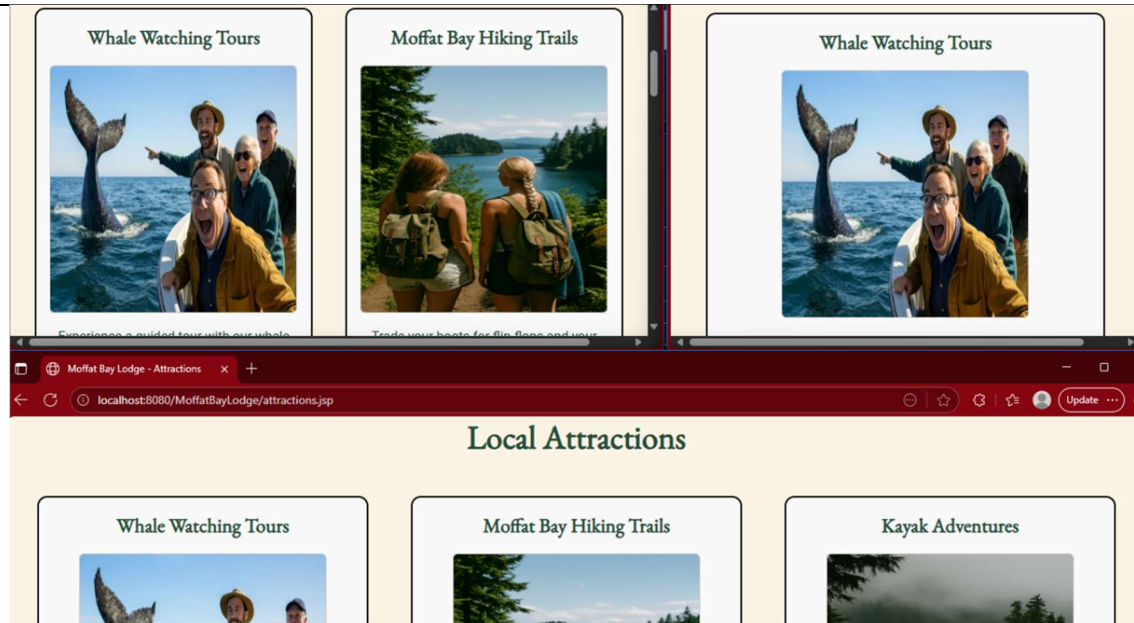

Kayak Adventures

Explore the tranquil waters of Moffat Bay with nothing but a paddle, a debatable sense of direction, and the occasional fish judging your technique. Whether you're gliding past forested cliffs or spinning in circles near the dock because you can't figure out how to get moving, it's a great way to feel adventurous without actually going very far.
